Pro. no. $\frac{9490-1}{124119}$ of 27/6/99

In sanctioning the pay-
ment of Compensation for
the lands acquired for the
new road & for building
purposes, in the Kolar
Gold Fields Local Board
certain observations on
the mistakes found in
the award statement &
withheld the publication
of the supplemental
declaration pending
explanation for the
mistake in the area
acquired out of Sur. no.
200 of the Coorigum village.
The Local Board has accepted
all the observations and
correct & begs that
the supplemental declar-
be ordered to be iss-
uing therein the
Commission

suggested by him

No: 15
1

Office of the Deputy Commissioner
Kolar District, Camp Champion
Reefs, the 15 September 1897

To

The Secretary to the Government
of Mysore, General & Revenue
Departments.

Sir,

On the occasion of his visit to
the gold fields the Dewan inspected the
Krijgan village and its neighbourhood. He was
of opinion that it was overcrowded highly
unsanitary and incapable of being extended or
improved. He promised however to consider
any proposals that might be submitted for
improving the sanitation of this and other
villages and suggested that sufficient lands
should be made available in eligible loca-
-lities for housebuilding as the gold mining
industry was growing apace.

2. The present gold fields road called
Krijgan

"Urejam - Gold Fields Railway Feeder" lies almost entirely on lands belonging to the Mining Companies and is separated from the Urejam and villages to the south of it by the Mining Camps of the various Companies.

3. The Gold Mining Companies object to villagers using this road when Cholera or other epidemic or cattle disease is reported to prevail in the villages.

4. The inhabitants of Urejam, Sonmakuppa and other villages to the east of the gold mines where most of the Goldfield population live, have no roads and find great inconvenience in coming to the Railway stations, to the Special Magistrate's Court, and to the various Mining Camps for work.

5. Merchants, Masters Artisans and others employed in the mines have no place within easy distance of the mines to build houses and are therefore obliged to overcrowd Urejam and other villages to the south named in the margin.

6. The only way to prevent this overcrowding and to improve the sanitation of

- 1 Sonnekoppa
- 2 Barandipatti
- 3 Vachekuppatti
- 4 Pattapatti
- 5 Dianapatti
- 6 Masikka
- 7 Gollapatti
- 8 Sonimakuppatti
- 9 Soorpatti
- 10 Marikuppatti
- 11 Balijanahatti
- 12 Chinaganahatti
- 13 Siddesondanahatti

of these villages, appears to me to be to open a new road between these villages and the Railway Line as indicated in the accompanying sketch and acquire and reserve the lands on both sides of this road for building houses, shops and all Government Offices and quarters, required for its officials in the gold fields. The advantages of this proposal may be summarised as follows:—

- (1) We shall have a road almost entirely on Government land and the Mining Companies can raise no objection to traffic passing on this road even if epidemics should break out in the neighbourhood.
- (2) The gold mines will have roads on all sides.
- (3) The Police will have proper roads for patrol and will be able to establish outposts at suitable points to prevent crime etc.
- (4) We shall be able to establish the arrack and toddy shops where we can well supervise and keep them under effective control.
- (5) People having work in the mines and in Government

Government offices in the Gold Fields, we be able to acquire, directly from Government and unfettered by any conditions, sites and build houses for themselves.

- (6) We shall also be able to set apart large areas in suitable localities for running up Cooly lines under proper sanitary conditions instead of their being huddled together as at present with houses of respectable ^{in and around villages} inhabitants and menacing their health.

- (7) We shall be able to build in a central and healthy spot Quarters for the Officers and men of the Police Force for the offices and residences of the Inspector of Mines and his establishment, for the Inspection Lodge Snt Division Office and Quarters for the D. P. W., a Dispensary for Uruqum and other villages, Quarters for the Hospital assistant and midwife and other Public buildings required. The Gold Mining Companies are not in a position even if willing to place at our disposal desirable lands for this purpose as ^{there} are none suitable along the existing Road

- (8) We shall then be able to arrange for a

a system of water supply for all the villages and the new township jointly. The most important measures of sanitary reform are providing good water and prevention of overcrowding in low and damp localities, and both these will thus be secured.

- (9) This township and the villages themselves could then be formed into a Municipal or Local Fund Union & controlled exclusively by Government Officers and representatives from the villages without reference to the Mining Companies who may be required to attend to the sanitation of their own grounds.

7. Dr Evans and Mr Hume Wright have also considered this question and inspected the locality and concur generally in the above views. Before therefore suggesting any remedial measures for the sanitation of the villages to the east of the Goldfields, I would have this question investigated and finally decided.

8. The main road may be about 5 miles in length and the cross-cuts to the Railway stations about 3 miles or altogether 8 miles. The roads generally pass upon Government Kharab land and even the portions held by ryots can be acquired at rates not exceeding Rs 50/- an acre. The whole cost of acquiring the lands for the roads and constructing them may be taken at about Rs 25000/- The lands on either side which will have to be set apart for housebuilding consist principally of Government Kharab or fomal and occupied dry lands and the latter will not average more than Rs 50/- an acre. We can have on the whole about 200 or 300 acres of which 200 will be Kharab and about 200 acres costing about Rs 5000/- When these are disposed of for housebuilding a good portion of the outlay on the roads and the acquisitions of lands, is sure to be made good.

9. If we can connect the new

main road with the Kamasamunda road and provide a good cross road to connect it with the existing Gold Fields road at a point near the Travellers Bungalow, we shall be able to give up the rest to the Mysore Company without going to the cost of making the proposed deviation to the right of the Marikuppam Railway Station which I am told ^{would} require about Rs 6000/-.

10. The drainage of the Urifam village now estimated to cost about Rs 20000/- and which is likely to be very troublesome in the present congested condition of the village, may also be deferred as I have no doubt that a good number of the residents will be drawn off to the new extension on account of its proximity to the gold mines and other advantages.

11. I beg therefore that early orders may

only a tracing
rec'd. with the
H.H.

may be passed on this proposal. Papers as
per margin are submitted for reference.

I have the honor to be,

Sir,

Your most obedient servant,

Aranganam Jagan
Deputy Commissioner
Kolar District

Not found

Read letter N^o Camp 15 dated 15th September 1897 from the Deputy Commr. of the Kolar District, submitting certain proposals in re the construction at the Kolar Gold Fields, of a new road with cross cuts as shown in the sketch accompanying it, and the acquisition and reservation of the lands required for building purposes at and in the neighborhood of the said Fields.

Order Camp no 5 en 2
Dr 30-9-97
Government Cont
cur with the Deputy
Commissioner in

pressing necessity

The Dy Commr's re-

commendation in this respect is therefore approved, and he is requested to make out a complete list of

as well as ~~at~~ for the roads above referred to ^{lands required for this purpose} and to take steps for the early acquisition of such of them as are private property. A statement showing the compensation payable to the owners of occupied lands to be thus acquired should be submitted for Govt sanction in anticipation of which however the Dy Commr is authorized to draw the necessary funds

not exceeding an aggregate of Rs 5000 and thereunto

in advance and make

payments to the parties

concerned. The acquisition sh^d be formal

made under the
Land Acq. Regn
^{Even when}
(whether the acqⁿ is
made by private agreement
so as to prevent further
disputes of title

Deputy Commissioners office
Kolar District
Dated. October 97

To
The Secretary to the Government
of Mysore
Revenue and Genl Departments
Bangalore

Sir,

I beg to acknowledge
Government Proceedings Camp
No 5 dated 30th ultimo sanction-
ing the opening of a new road and
giving directions for acquiring and
reserving lands for building sites in
the Gold Fields. —

2. Until the ground is actually
surveyed and the line of the proposed
road is fixed upon by the Public
Works Department, it is not possible
to state exactly what survey numbers
will skirt the proposed road and
which of them will be required to be
reserved. I have however prepared a
rough list of all the fields which are
likely to be within two furlongs on
either side of the proposed road
in the Villages noted in the margin
The proposed road will as far as I can
make

now in the Rev.
Bureau —
Btl
2. 11-97

Aonigam
Sompahappa
Nashepalli
Peottapadi
Harika
Sompalli
Baliganahalli
will follow.

make out pass rather close to the boundaries of the Kandidraog, Champion Reefs and Mysore mine blocks and actually cross about the middle of what is called East Arigam block. No mark is going up in the last mentioned property nor is there any likelihood in Mr Green's opinion of any shaft being sunk in it. There can therefore be no possible objection to taking the road across it. I shall look up references and address Government again about acquiring the land necessary for the road on this block.

3. Of all the lands contained in this statement, those belonging to the Villages of, Arigam, Lonnopalli, Nattipalli and Nandepalli are well suited for building purposes. The lands in Nandekam, Lurapalli and Kalapanapalli are cut up and low and may not be very useful for the same purpose but some of them are also likely to be found eligible - owing to their proximity to the Mysore mine and those further south and cooler lines will have to be marked off on them.

4. It will be observed that the total extent of the lands detailed in the statement

A. G.
is 587. 13 of which 15. 12 are formal
111. 12 Kharab, assessed holdings 297-6 and
assessed waste 163. 23 or 290-7 unoccupied
and 297-6 occupied. In my first letter
I estimated that we shall want about
300 acres of which 200 acres may
be unoccupied and about 100 occupied
and I do not expect the extent of really
eligible lands ~~to~~ to exceed this limit.
But this selection will take time
as it can be done only after the
proposed Road is marked on the
ground. I have for the present in-
cluded all lands likely to be required
at all for publication in the Gazette.
I do not anticipate any great difficulty
in buying such of the lands as are
actually required by private negotiation
with the owners. But it will greatly
strengthen my hands if a notification
were issued by Government stating
that the lands as per statement No II
are required for a public purpose
under section 6 of the Land Acquisition
act. We shall then be able to give
sufficient notice to all parties but
purchase only such as are actually
required. I beg therefore that this
notification may be issued at an
early date. -

will follow

Done

5 It is difficult to give an exhaustive list of the Government offices and quarters which will be required for the Gold Fields. But there can be no question that the following are urgently required and it will perhaps be better to have a small Committee composed of myself, Dr Evans, Special Magistrate, and Resident Engineer for discussing this question and submitting full proposals as to the buildings required, their size and estimated cost, localities.

- (1) Quarters for the Police Assistant Superintendent and for his office
- (2) Police Sub stations and Police lines for about 12 constables at each sub sta.
- (3) Quarters for the Inspector of mines and his office
- (4) Do for his assistant and 10 or 12 clerks
- (5) A Dispensary with in-patient ward for about a dozen beds
- (a) A ward for cholera and other diseases
- (6) Quarters for an Hospital Assistant and for a midwife. -
- (7) - An Inspection Lodge for Public Works Department and Revenue officers
- (8) Quarters for a Sub Division officer of Public Works Department with office
- (9) A bonded depot for arrack and a number of suitable shops for the sale of arrack in different localities. -
- (10) A paid Enclosure for a market with suitable slaughter houses. -

6 In connection with the improvement of the Sanitation of the Villages near the gold fields, the one most important question for solution is to devise the best means of providing a good supply of drinking water to the existing Villages and the Township which is now proposed. There are wells containing drinking water of fairly good quality in the Villages. But ^{they} are apt to run low during the hot weather and their general conservancy can never be satisfactorily attended to. They will also be at some distance from the proposed road and the township which will be located on a comparatively high ground. It will be found cheaper therefore on the whole to devise one large system of water supply from some large reservoir in the neighbourhood than to sink a number of wells in each Village. -

7 The Mining Companies consume a large quantity of water in their works and often find great difficulty to provide a sufficient supply. It is therefore hopeless to think of getting a supply in the Valley to the west of the proposed road. The Valley to the East also does not command a large catchment

and it is stated that the Borgam
Tank is unsatisfactory in that it
loses water largely by ^{percolation} percolation
in the bed or leakage from the bund.
But it is very near and will make
an excellent source of supply if
it can be enlarged and made
water tight and arrangements can
be made for pumping up water
from it. But I believe that the
Tank in Kandepalli and situated
to the north east of Krishnarappur
Village, will be found on investiga-
tion more satisfactory as it is
said to be large and deep and is
evidently situated on a higher level
than the Borgam Tank. This tank
commands a catchment of about
4 square miles and can easily
be made to contain 100 units of
water. The probable height to which
water will have to be lifted is about
160 feet to enable us to deliver it on the
surface on the highest levels along
the proposed road while the villages
are situated on much lower level.
I therefore suggest that the
Public Works Department may be
instructed to investigate the question
8 The next important measure

is to make suitable arrangements for the conservancy and Municipal Government of the Villages noted in the margin and of the new township. It will not be satisfactory to constitute the larger Villages into separate Municipalities leaving the other Villages for being attended to in the Local Fund Branch. It is very desirable to form these Villages and the new Township into one Municipal Union with suitable rules and bye laws conferring ample powers for enforcing order and cleanliness on the part of the residents. For this also a committee may be formed of the officers already mentioned with one or two members possessed of special knowledge in legislation... -

Recd. 14/4/99.

Subd with draft

25/4/99

Deputy Commr's Office, Kolar.

Dated 4th April 1899.

To

The Secretary to the Government of Mysore
Revenue and General Departments.

Sir

(4) Adverting to this office Camp no: 32 dated
the ^{26th} 7th October 1897, and Government Proceedings
Camp no: ② dated the 30th September 1897 in re the
opening out of a new road and the acquisition of
lands for this purpose, I have the honor to sub-
mit herewith a statement showing the occupied
lands which have been acquired and the amount
of compensation settled therefor. In it are inclu-
ded the lands required for the formation of the
Road, and those selected for the construction of
various Government buildings and the new Township.

2 The road not having been actually formed,
it was not possible to fix which of these lands
were actually required for the various purposes -
intended at first, and thus to curtail the acquisition
to the extent urgently required. I have therefore

thought

thought it advantageous to take up the whole of the lands originally selected and included in the schedule sent up to government Besides it is not possible to anticipate what the requirements would be, as the lands that will hereafter be taken up for private buildings will be contingent upon the convenience afforded to them in the new place, and the out-break of epidemic on the fields and in the neighbourhood has unsettled the stability of the population and it may take some time before we can be able to attract them to this new Town. But that extra land for private building sites will eventually be required is obvious by the fact of certain applications having been made, which however have not yet been considered, as I have thought it best to wait and see what is actually required for Government buildings.

3 I apprehend therefore no great loss on this account, as a large portion of it will eventually be recouped by sale of sites. Amount of compensation awarded has ranged from Rupees 35 to 50 per acre of assessed lands, In almost all the cases, the ryots have agreed to receive the compensation.

compensation fixed by the chudidar and a local Panchayat, and there were only two cases in which the parties dis-agreed. I have made an award as per Panchayat's statement and the compensation on the whole appears to be fair and reasonable.

4 The other point on which a report was promised in the previous letter was as regards the acquisition of the mining property. The road begins in the Coromandel Block of the Champion Reefs and passes for about 5 furlongs in that and the Chandiroog Blocks, and about 1 furlong in the 3rd and 6th mile in the East Mysore and Madamangla Blocks, and I have asked the Superintendents concerned to allow the work to be carried out in those properties. These companies as lessees have the under-ground rights, and the laying down of the road is not likely to interfere with their work, but will rather improve their property than otherwise. I do not apprehend therefore any difficulty in their acquisition and have provided no compensation for this item.

5 I have intimated to the Executive

Engineer the acquisition of these lands, and have requested him to take them over. The estimate already sanctioned for this work, does not include the Compensation, and I beg that the amount may be sanctioned as a supplemental item to enable me to make the payments at an early date, as even the advance of Rs: 500 sanctioned for this purpose has not been drawn and disbursed yet.

5000/-
vide order No 5 (7)
of 30-7-27.

I have the honor to be,
Sir

Your most obedient servant

H. H. G. S. S.

Deputy Commissioner
Kolar District.

Sir

(21)

In continuation of this office
docket No 4361
985 dated the 5th instant
stating that a supplemental state-
-ment of compensation payable for
the lands acquired for New Gold-
Fields Road, would be submitted
&c. I have the honor to state that
the two numbers 45 & 47 of Masikam
village are now reported to have
been purchased by Government
for nominal value as the Khateer
Sara Elizabeth failed to pay up the
arrears of Revenue and as no bids
were received for the same.

2. The Compensation Statement
Submitted with this office letter -

(19)

No 3940-921 dated the 4th ultimo is
therefore

therefore Complete, and solicit that
it may be sanctioned.

I have the honor to be,

Sir

Your most obedient Servant

Wm. L. Garrison

For Dy Commissioner

Wm

23

Head.

May 1899, from the Dy

9/11/21

The lands taken up for the purpose mentioned above, for which compensation has to be paid, belong to the following villages of the Bowringpet Taluk :-

Masi ka,
Kachika palli,
Souna koppa,
Soorappalli,
Beligana halli

7000
 6/99
 22/6/99

32/6/99.

Spine at base of
2416189.

Corigam,
Jodi Gollahalli, and
Jodi Gonimakalapalli.

II. On a comparison
of the compensation state-
ment, submitted by the
Deputy Commr., with the
schedule of lands ^{attached to the} declared
~~to be acquired~~ ^{opened} under the
Land Acquisition Regulation,
it is observed as follows:-

1. In addition to the
lands already declared ~~to~~ as
~~be~~ required for the purpose,
portions of Survey Nos 200
and 201 of the Corigam
village and portions of
lands from the ^{Jodi} villages of
Gollahalli and Gonimakala-
palli have been Taken
up.

2. ~~Survey Nos 45 and~~
~~47 of the Madikula village~~
~~have been omitted to be~~
~~shown in the statement,~~

~~as the extent actually to be taken up from these numbers has yet to be settled. The Dy Commissioner reports that a supplemental statement regarding these lands will be submitted.~~

2. The extent taken up out of Sw: No 42 of Nachikpalle has been shown in the compensation statement as $2-\overset{A}{\underset{G}{27}}$, while in the published schedule it is given as $2-\overset{A}{\underset{G}{29}}$. But the amount of compensation entered against this land is Rs 136-4-0, which is the value of $2-\overset{A}{\underset{G}{29}}$ and not of $2-\overset{A}{\underset{G}{27}}$, at the rate of Rs 50/ an acre.

III. — Further, there are the following discrepancies in the compensation statement:

1. The compensation for

for $38-\overset{A}{37}^{\text{G}}$ of Sur No 65 of Masika at Rs 30 an acre comes to Rs 1,167-12-0, ~~and~~ not Rs 1,168-8-0 as shown in the statement.

2. The total extent of land taken up in Nachikpalli has been shown in the statement as $95-\overset{A}{16}^{\text{G}}$ but the actual total comes to $93-\overset{A}{18}^{\text{G}}$. The difference viz $1-\overset{A}{38}^{\text{G}}$ has perhaps to be accounted for by including 2 guntas of land left out of calculation in the compensation statement referred to in ~~2nd~~ para II above, and taking into account Survey No 43, measuring $1-\overset{A}{36}^{\text{G}}$, (Toti Service Inam), which has been included in the published schedule.

3. The total extent of land taken up in all the villages has been shown in the compensation statement as $296\frac{A}{-}\frac{G}{30}$. But the total of the figures given in the statement itself comes to $296\frac{A}{-}\frac{G}{20}$. If the 1 acre and 36 guntas of Sur: No. 43, referred to in the preceding para, be ~~not~~ deducted from this, the total extent of lands taken up comes to $294\frac{A}{-}\frac{G}{24}$.

IV. In the draft ~~declar~~ declaration now submitted for the acquisition of ~~the~~ additional lands in the Oorigam, Jodi Gollahalli, and Jodi Gonimatalapalli villages, the extent required out of Sur: No. 200 of Oorigam has been put down as 30 guntas, while in the —

compensation statement -
it is entered as 23 guntas.
The Dy Commr is requested
to report whether the extent
taken is 30 or 23 guntas.
On receipt of this report,
the necessary declaration
will be ordered to be pub-
lished in the Mysore Gazette.

V. The payment of
compensation, as shown in
the following statement,
is sanctioned, subject to
explanation on the above
points:-

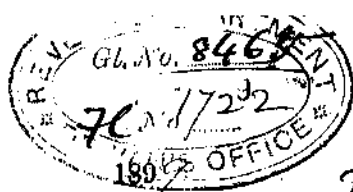

Name of village.	Extent of land taken up.		Amount of compensation.		
	A	B	Rs.	As.	"
Masika.	110	23	3,951	8	"
Wachikapalli.	93	20	3,964	12	"
	(including the 2 guntas left out of Sur. No 42)		~~3,754~~	1	"
Sonnakoppa.	58	38	2,754	4	"
Soorappalli	1	37	57	12	"
Beliganahalli.	6	20	195	"	"
Oosigan.	16	12	651	4	"
Josi Gollahalli.	2	16	192	"	"
Josi Gonimakahallipalli.	4	18	390	"	"
Total.	294	24	12,156	8	"

Government Proceedings
No. 9490-1 dated the 27th
R. 4119
instant sanctioning the
compensation payable
on account of the lands
taken up for the new
road to in the Goto
fields and pointing
out certain discre-
pancies in the state-
ment for an expla-
nation being submitted

Has the honor to submit
herewith the following:-

Para

Para 2. Item 2. The extent of land taken up out of Survey No. 42 was 2 a. 29 b. and compensation has been fixed for the whole of that plot. The figure 2 a. 27 b. was probably a clerical error made in fair-copying the statement, as the office copy bears the correct figure.

Para 3. Item (1). The compensation payable for 38 A. 37 B. at Masika was entered in the compensation statement as Rs 1168-8-0 instead of Rs 1167-12-0, as the former figure had been adopted by the Taluk Officials after consultation with

with the local Pur-
chayat (vide para 3

of this office letter No.

(9) 3940⁺ dated the 18th April
921
1899.)

Item (2). The total
extent of land taken
up in Pachikapalli
is 93 A. 20 G. while in
the total the Subi. &
Service Income of L.A.
36 G. was, as observed,
wrongly included and
totalled up.

Item 3. The observation
made in this para
is correct, and the
necessary alteration
in the office copy
has been made.

Para 4. The extent
requisitioned out of Survey
90

Rs 200 of Corrigas.
 is 33 Bundas, and the
 compensation of Rs
 28. 14. 0 at Rs 35/- per
 acre is rightly cal-
 culated on the said
 area. The figures 23
 and 30 appear to be
 clerical errors, and
 solicits that the
 same be ordered to
 be rectified and
 the Declaration
 published.

$$\frac{33 \times 7}{200} = \frac{231}{200} = 1.155 = 1 \frac{155}{1000} = 1 \frac{31}{200} = 1 \frac{15}{100} = 1 \frac{3}{20} = 1 \frac{1}{6} = 1.166 \dots$$
